August 2020

Looking Forward to the Future!

*By Wendy Smeltz, Center Manager
Evet Hexamer, Asst. Center Manager*

We hope you all know how very much you are missed and how we look forward to the day when we can fully open our doors back up to the community.

As with many areas of life during and after COVID-19, there will be changes in the way we do things. We want to do everything we can to keep our participants safe!

We have been working with the county and other area senior centers to come up with protocols to do our best to keep everyone healthy. While no one has all the answers, the discussions have given us a lot to consider. We want to let you know some of the changes you may be seeing when you return.

Sanitation practices have always been important to us but new procedures will be implemented. There will be an increase in the number and the depth of cleanings.

We will conduct a health screening as you enter the building which will include a survey and contact-free temperature check. You will swipe your card but center staff/volunteers will use the touch screen to sign you in for activities.

Continued from page 1

Social distancing is an important part of opening our doors. Only a limited number of people are allowed in the building at one time, according to government health standards. This will bring changes to lunch, programming and activities. Participants need to be able to distance themselves by 6 feet. For now, the consensus is that masks will need to always be worn and there will only be one person allowed to use the restroom facilities at a time.

Communication with participants is a priority. We will keep you updated through our newsletter, Facebook and, as always, if you have any questions please give us a call. We are here for you.

We know even when we do open, some of you may not feel comfortable coming to The Center. You can still stay connected by joining our Facebook group. We would love to hear from you!
